# ORGANIC CREAM PEELING

## PRODUCT BENEFITS

ORGANIC CREAM PEELING is a deep cleansing exfoliator based on natural Perlite grains. It has mattifying and pore refining properties. The skin looks even and smooth. Olive Oil, Coconut Oil and Shea Butter convey a soft and healthy look. Aloe Extract and Glycerin deeply moisturize the skin. For a visibly soft, delicate and smooth feel.

## TARGET GROUP

ORGANIC CREAM PEELING is suitable for all skin types .

## ACTIVE INGREDIENTS

- **Olea Europea (Olive) Fruit Oil:** obtained from the Olive, it exhibits excellent spreadability on the skin. Olive Oil is composed mainly of the mixed Triglyceride Esters of Oleic acid and Palmitic acid and of other fatty acids, along with traces of Squalene (up to 0.7%) and Sterols (about 0.2% Phytosterol). It is moisturizing and necessary for the construction of the natural barrier that protects the skin from drying out.
- **Aloe Barbadensis Leaf Juice:** desert lily, plant substance, acts humectant, anti-inflammatory and softening.
- **Cocos Nucifera (Coconut) Oil:** contains numerous saturated fats and Lauric acid. Lauric acid acts antibacterial and thus offers the skin protection against germs, bacteria and fungi. It provides the skin with moisture and protects it against aggressive environmental poisons. It regulates the active acid-base balance of the skin and thus acts against skin aging. In addition, it supports the natural healing process of the skin.
- **Glycerin:** natural moisturizing factor
- **Butyrospermum Parkii (Shea) Butter:** obtained from the fruit of the Shea tree. Contains ingredients with healing properties, has a high proportion of Triterpenes, Oleic acid, Linoleic acid, Palmitic acid, Stearic acid, Triterpene Alcohols, Vitamin E, Beta-Carotene and Allantoin. It has a moisture-regulating, calming and emollient effect.
- **Helianthus Annuus (Sunflower) Seed Oil:** sunflower Oil, extracted from the seeds of sun flower. Contains a high proportion of unsaturated fatty acids, especially Linoleic acid, Vitamin E, A, C, D and Carotenoids. It has elasticity-increasing effect on the skin and has regreasing features.
- **Perlite:** volcanic mineral, which has an absorbing action due to its water absorption capacity.
- **Tocopherol:** Vitamin E, antioxidant.

## EFFECTS AND CHARACTERISTICS

- Loosens dead skin cells
- Fine, smooth skin structure
- Refines pores and mattifying effect
- Moisture regulating, calming and emollient effect
- Increases skin elasticity
- Antioxidant
- Optimal treatment preparation

## APPLICATION

Distribute Organic Cream Peeling with damp hands to cleansed facial skin and massage in circular motions. Especially horny, rough spots you can treat more intensively. Afterwards rinse with warm water or remove it with warm compress.
